

# Introducing the new generation of on/off AGA cookers

*Ultimate flexibility, reduced running costs and now with five ovens*

It used to be a given that an AGA cooker was on all the time. Not so now, with the introduction of the new AGA Total Control series cookers.

They look exactly the same as a traditional AGA cooker and food is cooked with the same gentle radiant heat. But underneath the enamelled cast-iron exterior, there lies state-of-the-art technology.

It is this advancement that allows new generation AGA Total Control series cookers – each running on electricity – to be turned on and off at the touch of a button and with fast heat-up times, ensuring each new AGA cooker is ultimately flexible.

A brand-new addition to the range is the 5-oven model. It is the biggest AGA cooker yet and is perfect for those

with a large kitchen, for passionate cooks, anyone who loves the look and versatility of a larger AGA cooker and for owners of 4-oven AGA cookers who wish to replace their existing cooker as the new 5-oven AGA has exactly the same footprint.

These new AGA cookers can be controlled via an innovative touch-screen panel concealed behind a door at the front of the cooker.

iTotal Control models can also be programmed using a remote control unit or even from a mobile phone.

And intelligent room venting technology allows these AGA cookers to be sited anywhere in the kitchen, including within an island or peninsula unit. So now there really is an AGA cooker for everyone...

# AGA

NEW MODEL GUIDE

Your introduction to the new AGA Total Control series

- Full programmability
- Reduced running costs
- *Now available with 5 ovens*

**NEW!**  
5-oven model

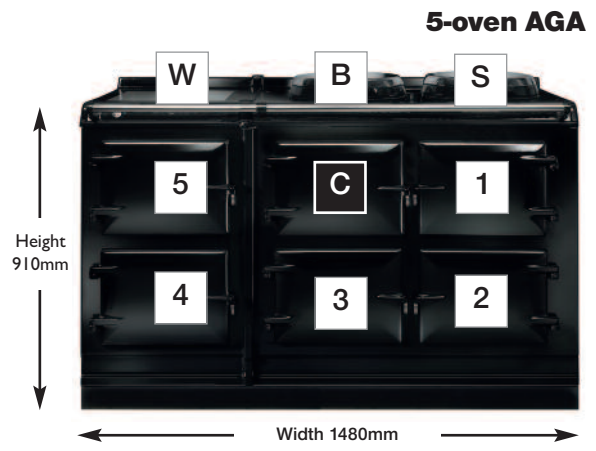

## AGA 5-oven Total Control

### Key features

- 5-oven electric model
- Roasting oven, baking oven, slow cooking oven, simmering oven and warming oven
- Independently controlled hotplates and ovens
- Two hotplates and a warming plate
- State-of-the-art control panel
- Available in 11 colours

Perfect for passionate cooks, large families or those with bigger kitchens, the brand-new 5-oven AGA Total Control series cookers feature roasting, baking, simmering, slow cooking and warming ovens. Available as a standard Total Control model or with iTotal Control technology, the 5-oven AGA cooker occupies the same footprint as the 4-oven AGA and offers the same peerless cooking performance you would expect from AGA. The new slow cooking oven is perfect for dishes such as shoulder or leg of lamb, steamed puddings, casseroles and stocks.

### Technical specifications

- W. Warming plate
- B. Boiling plate
- S. Simmering plate
- C. Control panel
- 1. Roasting oven
- 2. Simmering oven
- 3. Baking oven
- 4. Warming oven
- 5. Slow cooking oven

### Oven dimensions (cm)

	Height	Width	Depth
Roasting oven	25.4	34.9	49.5
Baking oven	25.4	34.9	49.5
Simmering oven	25.4	34.9	49.5
Slow cooking oven	25.4	34.9	53
Warming oven	25.4	34.9	53

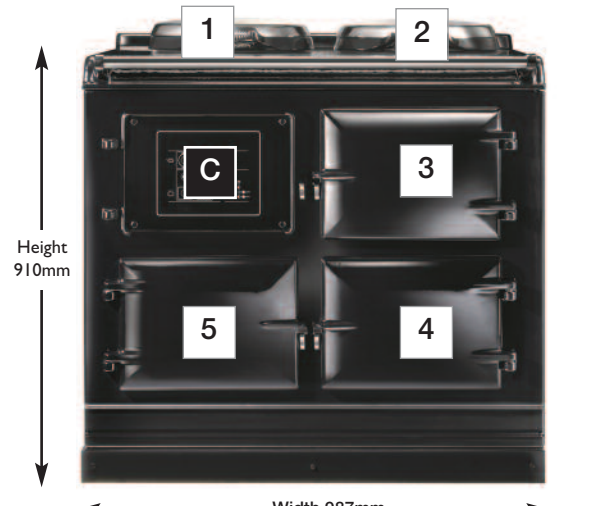

## AGA 3-oven Total Control

### Key features

- 3-oven electric model
- Roasting oven, simmering oven and baking oven
- State-of-the-art control panel
- Independently controlled ovens
- Independently controlled hotplates
- Reduced running costs
- Available in 11 colours

On when you want it and off when you don't, the AGA Total Control cooker is perfect for busy families, those who are away from home during the day, for holiday cottages and second homes and for anyone who loves the good looks of the AGA cooker and the great tasting food, but wants to save energy. This 3-oven AGA has roasting, baking and simmering ovens and is controlled via a touch-screen panel or remote control handset. It's easy to operate, looks fantastic and is ideal for those looking to trade up from an older 2-oven AGA as it occupies the same space.

### 3-oven AGA

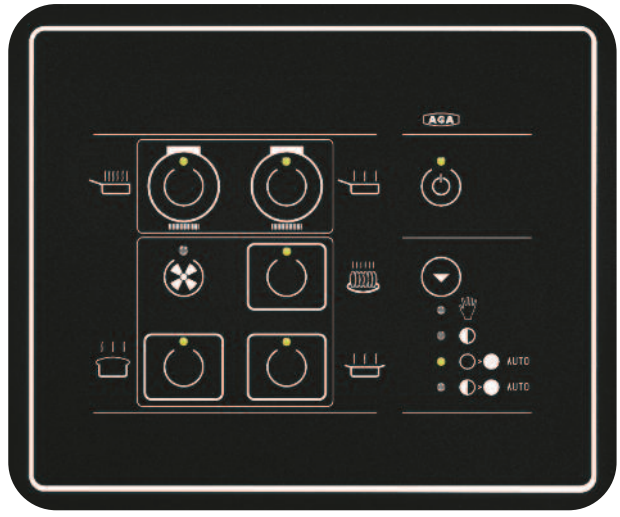

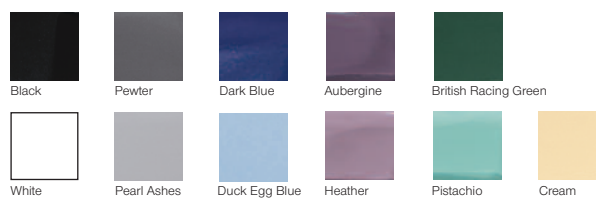

- C. Control panel
- 1. Boiling plate
- 2. Simmering plate
- 3. Roasting oven
- 4. Simmering oven
- 5. Baking oven

### Oven dimensions (cm)

	Height	Width	Depth
Roasting oven	25.4	34.9	49.5
Baking oven	25.4	34.9	49.5
Simmering oven	25.4	34.9	49.5

Depth of the 3-oven and 5-oven AGA Total Control and AGA iTotal Control is 698mm. Weight of the 3-oven is 370kg and 5-oven is 488kg.

### Available in 11 stunning colours

Touch-screen control panel

## AGA iTotal Control (3- or 5-oven)

### Key features

As above, but also...

- Fully programmable by text message via an iPhone or Android phone
- Programmable via web access from a PC, laptop, smartphone or tablet

The very latest technology is put to good use with the AGA iTotal Control. Owners of this model can switch their AGA ovens on and off wherever they are by using a smartphone app, PC or tablet or via a simple text message. It's perfect for those times when plans change or in the type of household where people come and go and want to eat at different times. AGA iTotal Control is available in 3-oven and 5-oven versions.

This is the 21st century cooker and is made for lovers of both great tasting food and new technology.

## NEW In-room venting

You can now have an AGA Total Control or iTotal Control wherever you live. They're 100% AGA, but with added ease and convenience. In fact they are no more complicated to fit or live with than any other 100cm range cooker. Traditionally, AGA cookers have needed to be vented externally – but that's all changed with the introduction of a brand new model which vents directly into the kitchen. If you live in a penthouse apartment, want an on-off AGA, within an island unit, against an internal wall or even standing alone in the centre of a room, there is now an AGA for you. The possibilities are endless and, as these new AGA cookers have on/off functionality, they are perfect for families who spend much of the day away from home.

## NEW AGA cooker hoods

### AGA Super Extractor Cooker Hood

Designed to cope with the powerful heat generated by an AGA cooker, the stylish new AGA Super Extractor Cooker Hood is highly effective in the removal of cooking odours and looks the part in any kitchen...

### Key features

- Extraction rate of 1,000 M<sup>3</sup>/hr
- 10-minute delayed 'fan off' to clear residual fumes
- Four variable speed settings
- Dishwasher-safe aluminium foil grease filters with built-in filter saturation warning after 200 hours of use
- Two 50-watt integrated halogen spotlights
- Extendable chimney length
- Available in Black with AGA Contemporary or Classic badge

### AGA Built-in Hood

The AGA Built-in Hood has been designed to fit seamlessly into kitchen projects where the furniture, rather than the hood, is the main design consideration. Finished in stainless steel, the AGA Built-in Hood not only provides effective odour removal, but also illuminates the AGA cooker below.

### Key features

- Extraction rate of 870 M<sup>3</sup>/hr
- Professional style stainless steel insert
- Operated by remote control or integrated push button panel
- Four variable speed settings with 'intensive' function
- Baffle filter with optional charcoal filters
- Two 50-watt integrated halogen spotlights
- Clean filter indication
- Stainless steel finish
