NEW WIDER MODEL

INTRODUCING THE NEW ELLESMERE STOVE RANGE

Beautiful design detail

Modern look stainless steel furniture

There are few things as delightful as listening to the crackle of a real fire and a stove from AGA is the very best way to enjoy this most elemental of pleasures. They create a beautiful focal point and can keep a space warm and cosy.

Stoves in this range have steel bodies and cast-iron doors and have the classic good looks the Ellesmere collection is well known for. They have been updated to ensure the very best aesthetics, enhanced performance and, importantly, they're 2022 compliant and DEFRA approved, giving you peace of mind that you have a stove that meets the very latest standards for efficiency and a cleaner burn performance. All of our new stoves achieve an A for energy efficiency with some models achieving A+.

These multi-fuel stoves look fantastic in both contemporary and traditional spaces and make a real statement while offering a practical heating solution for rooms of all sizes.

The cleverly designed air control comes in a stunning stainless steel finish and allows you to switch between solid fuel and wood as well as controlling the air intake. The end result is fabulous controllability and a magnificent flame picture.

**THERE ARE 3 MODELS TO CHOOSE FROM.
FIND OUT WHICH ONE SUITS YOUR HOME BELOW**

STOVE	FUEL TYPE	FLUE	HEAT OUTPUT	AIR WASH	EFFICIENCY	EFFICIENCY RATING
