Montfort Classic Side Bricks

The Montfort Classic pre-2013

The side bricks were a single refractory firebrick. The part number for this was 105274 and it is no longer available.

They have been replaced by two bricks, a smaller lower side brick FB105642 and a larger upper brick FB105274, giving a total height of 231mm which is slightly taller than the original, as you can see below, but they do fit into the stove.

**New type upper
firebrick FB105274**

**New type lower
firebrick FB105642**

**Old type firebrick
FB105274
no longer available**
