Montfort Elegance Baffle and Firebrick Identification

The Montfort Elegance has had two different baffles and rear fire bricks fitted and to confuse things the stoves have the same identification number 134 05 02, to help identification of the firebricks needed please read this document.

Montfort MK2 - Model 1340502

In the earlier model the firebrick has two holes in it which allow it to be screwed to the face of the baffle, number 13.

The baffle sits on a lower rear firebrick, number 2.

The baffle, number 16, is now no longer available having been replaced by a complete new baffle and rear firebrick, see over to page 2. The two rear bricks are still available and the side firebricks remain the same.

The firebricks can be purchased from the spare parts shop on our website:

www.euroheat.co.uk

Rear firebrick Part No: FB105638

Montfort Elegance Baffle and Firebrick Identification

The Montfort Elegance has had two different baffles and rear fire bricks fitted and to confuse things the stoves have the same identification number 134 05 02, to help identification of the firebricks needed please read this document.

Montfort MK2 EA - 1340502

In the earlier model the rear firebrick has two holes in, the stoves produced after March 2012 have a different baffle system, number 55 in the diagram.

This does not require a lower firebrick but has fitted in front of the baffle a firebrick, number 13, with a triangle shape cut away on each bottom corner to help when removing the brick from the fire.

The firebricks and baffle complete can be purchased from the spare parts shop on our website:
